Keep You Around

Anthony David

Just go, yeah
You know you're rockin' it well now, ah
I really wanna keep you around, huh, ah
Hey, [Incomprehensible], yes, yes
I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
And if a brother ever settled down
Well, it would have to be with you 'cause you're very special
You're the only one to hold me down
And when my status was low, you were the only one checkin' for me
Do whatever just to keep you around
Even with money and cars, I couldn't be successful
Without the right queen wearin' the crown
And you're rockin' the world
And you're rockin' the world
I like the way you stay by my side
Even through all of my flaws, I don't know how you do it
And, love, you keep me so satisfied
I wanna tell the whole world but that is too much information for them
And I would like to keep it all inside
And for whatever it's worth, I'm just lettin' you know that
I'm gonna love you 'til the day I die
And that's the way that it is, never wanna live without you, baby
I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
Never, never, never
I know your love gets better with time
And it's hard to deny what you bring to the table
It's a pleasure just to call you mine
And even given the world, I couldn't choose a better partner
I wanna lay it out on the line
And do whatever it takes because I'm willin' and able
'Cause when I make it, it shows my mind
And you ramping around
You ramping around

I like everything about you, baby
We compliment
You're the best thing goin'
[Incomprehensible]I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
I never wanna live without you, baby
I never wanna live without you, girl
