All That Matters

Gerald Levert

It ain't the fancy cars or diamond rings, no
It's deeper
It ain't a fancy home that makes my heart sing, no babe
It's sweeter
It ain't the sunny day that makes my nature rise, no
It's you, babe
The feeling I get when I look into your eyes, ooh
What you do to me, said
I need your body baby but tell me what to do
I'll follow your lead when trying to get you
To come to me, comfort me, let me see ecstasy
All that matters is you loving me
It ain't the apple pie that fills my appetite, no
It's better
It ain't the young girl that we just seen walking by
Don't sweat it baby, no
Girl, it ain't nothing 'bout my favorite song, no, no
It's stronger
It's how you get me coming back for your love
Baby, it's longer
I need your body baby but tell me what to do
I'll follow your lead when trying to get you
To come to me, comfort me, let me see ecstasy
All that matters is you loving me
I need your body baby but tell me what to do
I'll follow your lead when trying to get you
To come to me, comfort me, let me see ecstasy
All that matters is you loving me
Your sexy soft skin and other
My unrestricted love
There'll never be another
To keep these feelings coming, baby, baby
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
I need your body baby but tell me what to do

I'll follow your lead when trying to get you
To come to me, comfort me, let me see ecstasy
All that matters is you loving me
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
I need your body baby but tell me what to do
I'll follow your lead when trying to get you
To come to me, comfort me, let me see ecstasy
All that matters is you loving me
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
All that matters is you loving me
No stressing, no pressure
I'll comfort you, you comfort me
Baby, that's all
