

All I Want

Michael W. Smith

All I have in this world is fire from above
All I have in this world is You
And all the journeys I have walked
I know You've walked them too
All I want is to be faithful, all I want is You
All I have is a love that set my world on fire
Let it fall, let it burn in me
And oh to be a friend of God is all that I desire
All I want is to be faithful, all I want is You
All I want is You
All I want is You
It is You
All I have in this world is fire from above
All I have in this world is You
And all the journeys I have walked
I know You've walked them too
All I want is to be faithful, all I want is You
