

# What You Like

## Seb Wildblood

Let's take a ride, take ya somewhere nice  
Let me see your face, in the neon lights  
Got ya fools benched  
Then we whisper in your ear  
No need for questions  
Let me make it crystal clear  
I can be your angel  
Even if it's for one night  
If you show me somethin' special  
I can show you what you like  
What you, what you like  
Girl, I understand  
Ya say you wanna take your time  
But I can see already, that you're gonna change your mind  
Got your full attention  
You're pullin' me right out the door  
Gotta know just what you're thinkin'  
So tell me what ya have in store  
I can be your angel  
Even if it's for one night  
If you show me somethin' special  
I can show you what you like  
What you, what you like  
I know a place where we can get away  
Get into whatever boy as long as it's you and me  
And baby, I know a place where we can be alone  
Baby, tonight, (tonight) tonight (tonight)  
(What you like)  
I can be your angel  
Even if it's for one night  
If you show me somethin' special  
I can show you what you like  
Don't get confused  
You don't have to choose  
Cuz it's on the table  
And it's all for you  
Boy, I wanna get down, down, down, on the floor right now  
If you wanna keep my attention

Well baby, let me show you how  
I know a place where we can get away  
Get into whatever boy as long as it's you and me  
And baby, I know a place where we can be alone  
Baby, tonight, (tonight) tonight (tonight)  
I know a place where we can get away  
Get into whatever boy as long as it's you and me  
And baby, I know a place where we can be alone  
Baby, tonight, (tonight) tonight (tonight)  
(What you, what you like)  
What you like  
(What you, what you like)
