Don't Look So Sad

Kasey Chambers

Sink or you can swim
But you can't change it now you're fallin' in
So drift or you can fly
Just don't waste it all on
Reasons why you break when you can mend
It's not that easy turnin' 'round again
I know it's hard to hear
But after all that's said and done it will disappear
Don't look so sad, it's not that bad
You know, I won't let go, no
Don't look so sad, you know to go down
Easy is the hardest way to go
Laugh or you can cry
But know a million tears will always dry
So face what you can't hide
You know it's waiting on the other side
So crash and you can burn
You know there's always something there to learn

In time it goes away
But after all that's said and done it'll be okay
Don't look so sad, it's not that bad
You know, I won't let go, no
Don't look so sad, you know to go down
Easy is the hardest way to go
It's all the same I know
When everything is sinking in
But one day you'll wake to find
It's best to leave it all behind
You're at the end so start again
Don't look so sad, it's not that bad
You know, I won't let go, no
Don't look so sad, you know to go down
Easy is the hardest way to go
It's the hardest way to go
