This Time

Curtis Stigers

Love makes us laugh
Love makes us cry
We're up and we're down
We don't understood why
But we take it
We're just tryin' to make it

Sometimes we lose touch
With our feelings inside
We put up our walls
When we injure our pride
And we break up
Only to make up

Easy love has never been easy
I've been searchin' tryin' every door
'Till I finally found what I was looking for

And it takes what it takes
We all make mistakes
There are so many mountains to climb
But I know that our love will survive baby
This time

We heal from the pain
And we learn from the past
The future is ours
Girl we've found it at last
We both know it
We can't help but show it

Baby so many times when the road got rough
We thought that we both had enough
But we kept it alive
Somehow the love wouldn't die
It just wouldn't die

And it takes what it takes
We all make mistakes
There are so many mountains to climb

But I know that our love will survive baby
This time
