Calling To Say

Serena Ryder

I wasn't sure if I should call, even though we're family and all
it seems strange to let it past, i just thought i'd call and ask, are you having fun? Are you seeing anyone..
yeah iv been busy to, i hope i'm not keeping you.
im just calling to say, merry christmas, merry merry christmas baby, im just calling to say, merry christmas, merry, merry christmas baby.
yeah im glad it's not much good, i wasn't sure just where we stood. its good to know that were still friends, nothings changed much on my end, yeah im doing fine.
you just came to mind, i guess it'she time of year, it's strange that you're not here.

i'm just calling to say merry christmas, merry, merry christmas baby.
im just calling to say merry christmas, merry, merry christmas baby.
yeah, we all went out last night, driving around to see the lighs, just like we always do, everyone there but you.
i'm just calling to say merry christmas, merry, merry christmas baby. im just calling to say merry christmas, merry, merry christmas baby.
yeah im having fuhn, iv been seeing someone, okay thats a little lie, theres been no other guy.
i'm just calling to say merry christmas, merry, merry christmas baby. im just calling to say merry christmas, merry, merry christmas baby. im just calling to say merry christmas, merry, merry christmas baby.
