

# Born Too Slow

NFSU

Just like seventies goof balls he's waiting on last calls  
Well listen to method man, 'cause if you leave on the last line  
Don't leave on the ground kind, born just a little too slow  
Just a little too slowJust a little too oh your lives are more than two just a little too  
Oh just a little too, 'cause if ya picture the wrong kind  
You'll know you'll be turnin' blind, got outta your head  
Bangin' tail just the wrong way you'll know that you're turnin' gray  
I'm just a little too slowOh your lives are more than two, more than two, more than too slow  
Oh your lives are more than two, just a little two, just a little too  
Your lives are more than two, just a little too  
Oh your life's are more than two, just a little too slow'Cause if you leave on the last line don't leave on the  
ground kind  
Well listen to method man 'cause if you leave him callin'  
You'll know you'll be fallin' lights are bummin' low  
Your shot off and bum and go, lives are bummin' low  
Your shot off and bum and go, born just a little too slow
