# Petrified

## Taboo OBC

Y'all are not, not, not ready ho, not, not ready ho
We're gonna drop it steady so do it like that
Like that, like that, like that, like that, like that, like that
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Yeah, how you doin? y?all? My name is Mike
I?m foolin' with the new, I?m doin' it all like
I like what I do, I do what I like
I could quit and get it back like I?m ridin' a bike
Like stop, bring it back, bring it back
We got that balance keepin' us on track
That ya get what ya move and quit with no slow
You stare like you don?t care but you do it though
I know you really must be so lonely
Puffed up, lookin? tough but so phony
You and your boys, you don?t know me
You really wanna hold me, show me homie
Let's get it over with for good
I got a friction addiction, I wish you would
Machine Shop rockin? when we step inside
And we got everybody so petrified
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Listen, you are not ready
Like children in a building you can?t stand steady
It must be the beat so heavy
'Coz I panic, attacks like a crack in the levy
Give you that rob or plant, dancin' days are back
Feelin' all in the track and in fact for those knowin' the name
I'm back with some brand new attack
Who can do it like that?

You really must be so lonely

Puffed up, lookin? tough but so phony
You and your boys, you don?t know me
You really wanna hold me, show me homie
Tough talk doesn't mean a thing
You know for yourself, you know when we?re up in a scene
It's Machine Shop rockin? when we step inside
And we got everybody so petrified
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Y'all are not, not, not ready ho, not, not ready ho
We're gonna drop it steady so do it like that
Like that, like that, like that, like that, like that, like that
Y'all are not, not, not ready ho, not, not ready ho
We're gonna drop it steady so do it like that
Like that, like that, like that, like that, like that, like, get up
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Now why is everybody so petrified?
What? Petrified? What? Step aside and just
Drop that, come on, drop that, come on
Drop that, come on, drop that, come on
Like stop, bring it back, bring it back
We got that balance keepin' us on track
Like stop, bring it back, bring it back
We got that balance keepin' us on track
Like stop, bring it back, bring it back
We got that balance keepin' us on track
Like stop, bring it back, bring it back
We got that balance keepin' us on track
Like stop, stop, stop
Machine Shop, shop, shop
