

# Draw the Line

P.O.D.

Brothers and sisters we're gonna draw the line  
To forget about the problems abroad  
But in the end we all have problems of our own  
Gangs crack Racism and many people don't have hope  
It probably don't matter much to you in the struggles  
The time that we live but you don't know your future  
So you better take time to give who's gonna draw the line?  
We're gonna draw the line together  
Forever and ever you must be thinking  
I can't do a thing but look at me  
I help when I sing where man can make a difference  
Like Caesar Chavez and Dr. King  
We all have the ability to release a positive capability  
Where the youth is our responsibility  
It's time to take a stand who's gonna draw the line?  
We're gonna draw the line together  
Forever and ever  
Brothers and sisters we're gonna draw the line  
To make people change  
Yo I'm optimistic  
Down with positivity  
But yo I'm realistic  
This line will be drawn over night  
This is a struggle so prepare to fight  
Who's gonna draw the line?  
We're gonna draw the line together  
Forever and ever

Songwriters

NOAH C. BERNARDO, MARCOS CURIEL, MARK TRAA DANIELS, PAUL J. SANDOVAL
