Daniel

I began way to regression
I began it then I was born
All my thoughts are complicated
There is no God, which I can serve

Disorder!

Our world is out of order
Our feelings is not true
Sins and demons are possesses us
All that demons are our mind

Our thoughts are full of evil
Our bodies are deceased
Our souls are sold to Devil
Our life lost in the Mist

Planet Earth will colored grey
No more happiness â€“ no more lies
Nuclear winter made its way
More and more destructed lifes
