## The Magpies

Tell me where we go from this point
I didn't see him bring you down
Seems like yesterday I had seen you
I tried so hard just to say your name
And I rather die than disappoint you
For me to be free from me
I will be free from you
Remember the times I sat on your lap
The way you'd always touch my knees
Seems like yesterday you would rape me
I feel your hands still touch my face
And all I wanted from you was to love me
For me to be free from you
I will be free from ... me
Now you fade away
Your all I was before
Now you fade away
Your eyes I once adored
Now you fade away
Give me one last kiss before
Before you fade away
You're all I am anymore
My pressure starts to rise

within these closed in places
Feels like the son of God
just reached out and grabbed me
I've never seen you smile
in all your million faces
You haven't tears enough
for what you have done to me
Oh God My
My pressure starts to rise
within these closed in places
Feels like the son of God
just reached out and grabbed me
I've never seen you smile
in all your million faces
You haven't tears enough

for what you have done to me
Now you fade away
Your all I was before
Now you fade away
Your eyes I once adored
Now you fade away
Give me one last kiss before
Before you fade away
