

# Paralyzing Ignorance

## Meshuggah

Hear mourners  
The earth is gasping for air  
Sneering at this thoughtless ravage  
If we don't wake, we'll massacre ourselves Sneaking skulduggery  
Slaughter the lungs of humanity  
Spreading devastation through this world  
A price we never can pay Dethrone the impassive governments  
No more of this dupery  
Pollution of environment, stop this now  
Before it's too late Mouldering world  
You're dying slowly piece by piece  
All the riches you've created  
Will soon be laid destroyed Dethrone the impassive governments  
No more of this dupery  
Pollution of environment, stop this now  
Before it's too late People obey your eyes  
We can't repair when it's all destroyed, no way, dupery  
Approaching death, tomorrow falls  
Why? People obey your eyes  
We can't repair when it's all destroyed, no way, dupery  
Approaching death, tomorrow falls  
Why? Paralyzed by ignorance  
The cemetery plans continue  
A tremendous trepidation  
Perfidious annihilation, all in vain
