

# The Great Secret

## Every Time I Die

Blow your fucking brains out (x2)  
Tune that pale flame out  
Extinguish the glow forever  
And in will come the sun (x4)  
Blind fold your eyes, you are loved  
Trust in her aim, you are loved  
Now dance to the grave, you are loved  
No one will ever know who they are  
So blow your fucking brains out (x2)  
Tune that pale flame out  
Crack the egg wide open  
And out will pour enough (x2)  
Once you stop believing in yourself  
Silence the voice  
So raise your antenna towards the sky  
Put blood in the well if it dries  
What is now instead of what is next  
Our reflections only draw us to our deaths  
Tell yourself nothing (x3)  
Let the word come (x3)  
All eyes off (x2)  
Drift without sight  
All eyes off (x2)  
Drift without sight  
Blow your fucking brains out (x2)
