

Silent House

Crowded House

These walls have eyes
Rows of photographs and faces like mine
Who do we become
Without knowing where we started from? Its true, Im missing you
And I stand alone inside your room Everything that you made by hand
Everything that you know by heart I will try to connect all the pieces youve left
I will carry it on and let you forget
Ill remember the years when your mind was still clear
All the flickering lights that filled up this silent house One room, two beds
In the closet hangs your favorite dress
Good books that youve read
Are in pieces now, the pages are shredded Everything that you made by hand
Everything that you know by heart I will try to connect all the pieces youve left
I will carry it on and let you forget
Ill remember the years when your mind was still clear
All the laughter and light that filled up this silent house Everything that you made by hand
And everything that you learned by heart
Every name that you cant recall I will try to connect all the pieces youve left
I will carry it on, let you forget
Ill remember the years when your mind was still clear
And the flickering lights that filled up this silent house
Silent house
