

I'm Not Going Out Like That

Run Dmc

Many of our people, stealing, gambling
Many of our people turn to crime, time, nah, I get mine
Climb, do fine, wine and just dine, make, break, ill and just take
Fate for God sake a break is at stake
Crack, wack, smack you right back
In fact you might last to jack if I crack
Cry, lie, do or just die
Live positive and give but that's why I'm not
Going out, out, out, like that, I'm not
Going out, out, out, like that, like, like, like
Going out, out, out, like that, I'm not
Going out, out, out, like that
Dee the King, me and you knew it
I raise emcees to get to it
You want to flaunt and talk and you're trying
To taunt and want and want 'cause you're dying
Your place, race, chase and I seen it
And now, child, bow and I mean it
I came, saw, kicked and you saw it
The crowd, proud and loud and all for it
Real sin is wrong, so don't do it
We invented the song and you blew it
I knew the time was right, so I wrote it
Here's the hook, look, so just quote it, I'm not
Going out, out, out, like that, I'm not
Going out, out, out, like that, like, like, like
Going out, out, out, like that, I'm not
Going out, out, out, like that
Coming off, time and time and that's whether
You, your crew, knew, whatever
I did, done, do, I'm this clever
I come again and win and you'll never
See a man like me, your idol
So joke, smoke, toke but this title
The rhyme is mine, fine and so vital
It's time for me to rock, my recital
Gonna tell you about a groove, that's coming
From the heart in part and just one in
A million or you will be bumming

So check the time, the rhyme that comes from it
 Inside your brain, remain, so just keep it
 Plain, sane, refrain, so just peep it
 Look, see it, check but never stop it
 The hook comes next so Jay drop it, I'm not
 Going out, out, out, like that, I'm not
 Going out, out, out, like that, like, like, like
 Going out, out, out, like that, I'm not
 Going out, out, out, like that
 Gotta go Joe you know, to the T O P
 And see Dee, you know we know
 The way today I say, I'm not a Leo
 The King is Dee and Jay, he score a P.O
 That's left to smile a while, keep grinning
 This past style is wild and I'm winning
 Roll, stroll, control and I'm cooling
 The King of Rock and Roll and I'm ruling
 I rhyme, shock and stop and I'm dropping
 I pop hip-hop, I'm hip-hopping
 Receive a G, well he, while I'm throwing
 It's D.M.C. it's me, I'm not going, I'm not
 Going out, out, out, like that, I'm not
 Going out, out, out, like that, like, like, like
 Going out, out, out, like that, I'm not
 Going out, out, out, like that
 Must crush us, you gotta take us out, we're hotter
 Team is mean a lot of work involved, we're smarter
 Dee, Jay, Run, no joking, hot as hell, we're smoking
 Punks, rumps, chumps, we're yoking, news is crews are choking
 Out like that, not going, in like men, we're growing
 Chance to dance, not blowing, go to show, don't roll in
 Don't you know, we're staying here, to show not playing?
 Here's the jam, respect it, time to end this record, I'm not
 Going out, out, out, like that, I'm not
 Going out, out, out, like that, like, like, like
 Going out, out, out, like that, I'm not
 Going out, out, out, like that
 Going out, out, out, like that, I'm not
 Going out, out, out, like that, like, like, like
 Going out, out, out, like that, I'm not
 Going out, out, out, like that
 Going
 Going
 Going
 Going

Going out, out, out
Going out, out, out
Going out, out, out
Going out, out, out
