

I'll Make It to the Brigades

Lovehatehero

one day we'll say
well i fear one day ill say
i dont love this anymore
one day we'll say
i fear one day ill say
i dont love this anymore
as the sun comes out
over the horizon
and my mind is burning out
like the fake lights beside me
i look forward to tonight
a time im trully happy
is this where i want to wait
well im scared now
is this working out
well now my voice is on the way
hurts to think about
well im scared one day ill say
i dont love this anymore
turn my back on all my friends
hurts to think about
yaaaa

well im scared one day ill say
i dont love this anymore
yoouu
im scared one day ill say!
i dont love this anymore
the brighter i shine
the darker my shadows
they may pull me behind
cause i let off the peddle
why should i divide
what feels so right
is this where i walk away

well im scared now
is this working out
well my voice is on the way

hurts to think about
im scared one day ill say
i dont love this anymore
turn my back on all my friends
hurts to think about

if i turn my back
when i close my eyes
years from now
all that i find
is that interest burning
and burning
oooo

one day we'll say
i fear one day ill say
i dont love this anymore
one day we'll say
im scared one day ill say
i dont love this anymore
well im scared now
is this working out
well my voice is on the way
hurts to think about
well im scared one day ill say
i dont love this anymore
turn my back on all my friends
hurts to think about

well im scared now
is this working out
well my voice is on the way
hurts to think about
well im scared one day ill say
i dont love this anymore
turn my back on all my my friends
hurts to think about
i dont love this anymore!
