Angel face

The Outcasts

I was struck down by your angel face
I had a father, I had a brother
I had a husband and I had a lover
I had a son, he filled me with wonder
But I was struck down by your angel face
I was a woman, I was a mother
Wake in a fever from what I've been under
You made my heart beat
Like God made the thunder
Said, I was struck down by your angel face
Oh, did I tell you? Did I bother to mention?
You're keeping me worried, building up tension
Spinning out of control
Don't trust my intention
Since I was struck down by your angel face
Said, I was struck down by your angel face
I was struck down by your angel face
Your angel face
Your angel face
Your angel face
