Heaven

The Milk Carton Kids

Go ahead stomp your feet on the floorboards
Clap your hands if that's really what you came here for
It ain't a prayer for luck over the door
They promised me Heaven
I was hoping for something moreStomp the drum, good and loud
Shake the walls down
Scream and holler, jump about
All together nowAin't nothing like a lie to gather round
They promised me Heaven
I was hoping for so much moreHeaven, are we wasted?
Heaven, have we been out long?
Heaven, are you waiting?
Heaven, this is going wrongPour me up another
This is gonna hurt
Should've known it all alone
Heaven better shake it
Heaven better make it strongGo to hell, stomp your feet on the floorboards
Stepping time, count 'em in just to be real sure
This ain't a revolution anymore
They promised me Heaven
I was hoping for something moreHeaven, are we wasted?
Heaven, have we been out long?
Heaven, are you waiting?
Heaven, this is going wrongPour me up another
This is gonna hurt
Shoud've known it all along
Heaven better shake it
Heaven better make it strong
Heaven better shake it
Heaven better make it strong
