

# Heaven

## The Milk Carton Kids

Go ahead stomp your feet on the floorboards  
Clap your hands if that's really what you came here for  
It ain't a prayer for luck over the door  
They promised me Heaven  
I was hoping for something more Stomp the drum, good and loud  
Shake the walls down  
Scream and holler, jump about  
All together now Ain't nothing like a lie to gather round  
They promised me Heaven  
I was hoping for so much more Heaven, are we wasted?  
Heaven, have we been out long?  
Heaven, are you waiting?  
Heaven, this is going wrong Pour me up another  
This is gonna hurt  
Should've known it all alone  
Heaven better shake it  
Heaven better make it strong Go to hell, stomp your feet on the floorboards  
Stepping time, count 'em in just to be real sure  
This ain't a revolution anymore  
They promised me Heaven  
I was hoping for something more Heaven, are we wasted?  
Heaven, have we been out long?  
Heaven, are you waiting?  
Heaven, this is going wrong Pour me up another  
This is gonna hurt  
Shoud've known it all along  
Heaven better shake it  
Heaven better make it strong  
Heaven better shake it  
Heaven better make it strong
