

Where I'm Going

Ferris

Take my hand if you know where I'm going through

Take my hand if you know where I'm going

You know ow

You know ow

All you need is a dream and a lover too

All you need is a dream and a lover

Take my hand 'cause I know what you're going through

After the time I haven't known where you're going

You know ow

You know ow

It's my dream that you've chosen if you wanna to

It's a turning cause your if you wanna

You know ow

You know ow

I set me free

But I with hands of dreams

I know fresh down the sea

To wonder will agree
