

# Iron Eagle (Never Say Die)

## King Kobra

I can do anything when i choose, got everything, but i got nothing to lose  
Go anywhere from heaven to hell, i might find the devil, you can never tell

There's a thousand hills and valleys, a million dams and streams  
An ocean of eternity, between my hopes and dreams

[chorus]

Never say die, iron eagle  
Nothing's forever, now or ever  
Never say die, iron eagle  
Never look back, never say die

Don't try and bring my soul to the ground, my spirit remembers old mountain magic sounds  
Against all odds, i'll come out on top, 'cause i never learned, the meaning of what meant stop

There are walls and there are bridges  
But no problems when you're free  
An adventure past the horizon, always beckons me
