

Rainy Day (Acoustic Version)

Big Dismal

On a rainy day
I feel like I can change the world
'Cause somehow I know that it's all gonna be alright
And on a rainy day
I can feel my heart beating
And I can taste the tears falling from the sky
On a rainy day
(Won't You come and save the world?)
On a rainy day
(I know, You're looking down on me) Love
It keeps us hanging on
Even when all hope is gone
I believe that Your love rains down on me
Faith
It carries us away, it takes us to a place
Far above this world
And I can see you in the clouds on a rainy day
On a rainy day
I feel like I'm in tune
And I can clearly see how much I have to lose
And on a rainy day
I feel like I am free
'Cause I know, You did it all to rescue me
On a rainy day
(Won't You come and save the world?)
On a rainy day
(I know, You're looking down on me) Love
It keeps us hanging on
Even when all hope is gone
I believe that Your love rains down on me
Faith
It carries us away, it takes us to a place
Far above this world
And I can see you in the clouds on a rainy day
Won't You come and save the world?
Won't You come and save the world?
Won't You come and save the world for You and me?
Won't You come and save the world?
Won't You come and save the world?
Won't You come and save the world for You and me? Love
It keeps us hanging on
Even when all hope is gone
I believe that Your love rains down on me
Faith
It carries us away, it takes us to a place
Far above this world
And I can see you in the clouds, yeah
Like a rainbow shining down
On a rainy day
Yeah, on a rainy day

On a rainy day
(Won't You come and save the world?)
