

# PCH

## Tokyo Police Club

All along the beaches of the PCH  
Quiet 'til I kiss you off  
Looking at the mirrors 'til they fade away  
Hoping that I'm not in love The wind is in our eyes  
It's hard to see your face  
Pull over to the shoulder (ah)  
Some things people say put me in a spin  
Some things people say keep me guessing  
Keep me guessing (Talk it up)  
I heard this one before you  
I'm still a sucker for it  
(Talk it up)  
You know I can't ignore it  
I'm always falling for it Tearing up the speakers of my GTO  
Loud enough to piss you off  
Adding all the words together one by one  
Hoping that you're not in love Who cares if that's the truth  
I'm looking in the dust  
I'm seeing what you're seeing (ah)  
Some things people say put me in a spin  
Some things people people say keep me guessing  
Keep me guessing (Talk it up)  
I heard this one before you  
I'm still a sucker for it  
(Talk it up)  
You know I can't ignore it  
I'm always falling for it I'm still a sucker for it (Talk it up)  
I heard this one before you  
I'm still a sucker for it  
(Talk it up)  
You know I can't ignore it  
I'm always falling for it  
Falling for it (Talk it up)  
Falling for it  
(Talk it up)  
I'm falling for it  
(Talk it up) I heard this one before you  
I'm still a sucker for it
