The Joyride

There for Tomorrow

Never say you could if you couldn't
Never say you will if you won't come any closer
Then you already are
You already areYou don't need an army to solider on
Savor the dark and we'll turn the lights on brighter
Than ever before, than ever before
Are you over going under when
Everybody else is going higher
So much higher
So come up with meWell, I'm taking a joyride
Going elsewhere I suppose
I'm taking a joyride
To somewhere I don't know
Let's take the high road
Let's take the high roadWe can kiss the sky with flaming lips,
Deny ever sparking all these fires
All these fires
So burn up with meWell, I'm taking a joyride
Going elsewhere I suppose
I'm taking a joyride
To somewhere I don't know
Let's take the high road to where ever you are
Let's take the high road to where ever you areAnd we could drive miles away
Miles away
Take me away
Miles away(Never say you could if you couldn't
Never say you could if you couldn't)Never say you could if you couldn't
Never say you will if you won't come any closer
Than you already are
You already areLet's take a joyride
Going elsewhere I suppose
I'm taking a joyride
To somewhere I don't know
Let's take the high road (high road) to where ever you are
Let's take the high road (high road) to where ever you are
So we could drive miles away
Miles away
