

Cherry Pie

Jennifer Lopez

What what what?

Hey!

Yeah, you You had a dark sexy vibe about ya

And in a strange way, you turn me on

The way you look said a lot about ya

As if you really didn't give a uhh! I told myself not to fall for you

'Cause I can see that you don't follow rules

I should've just walked away

But your eyes were telling me to stay Damn, why do the wild ones turn me on? Its like cherry pie, you cant deny it

Driving fast, you had to try it, thats what it feels like

Letting Tony touch you everywhere

Breaking rules and didn't care, thats what it feels like A real rebel kinda fella

The kind that I would never trust

I could read what your mind was thinking

Its like you still didn't give a hey! Its funny how those kind of guys

Have a way of getting what they want

And even good girls though they try

You see they just cant seem to stay away Damn, why do the wild ones turn me on? Its like cherry pie, you cant deny it

Driving fast, you had to try it, thats what it feels like

Letting Tony touch you everywhere

Breaking rules and didn't care, thats what it feels like Its like cherry pie, you cant deny it

Driving fast you had to try it, oh thats what it feels like

Letting Tony touch you everywhere

Breaking rules and didn't care, oh baby, thats what it feels like I can be your cherry pie

And you can be my cream on top, come on!

I can be your cherry pie

And you can be my cream on top Its like cherry pie, you cant deny it

Driving fast, you had to try it, oh, thats what it feels like

Letting Tony touch you everywhere

Breaking rules and didn't care, oh baby, thats what it feels like Its like cherry pie, you cant deny it

Driving fast, you had to try it

Letting Tony touch you everywhere

Breaking rules and didn't care, yeah, yeah
