Move On

Run Kid Run

Your words, they never spoke so clear to me
The way they did that day
I always dreamed we'd be forever
I always thought it'd be okayI took for granted all you gave me
I never thought you'd go away
Was this not love that we were sharing
I thought love never went awaySay goodbye to memories
'Cause I have said so long
Say goodbye to all our dreams
It's time now toI see now this is where our story ends
So just move on, I'm told
Today I loved someone for three years
Tomorrow learn to just let goTo have your best friend always be there
Then one day to see her go
My world is falling all around me
And girl, you're all I knowSay goodbye to memories
'Cause I have said so long
Say goodbye to all our dreams
It's time now to move onAnd on and on I've tried to let go
My mind can not forget you
You're all I knowSay goodbye to memories
'Cause I have said so long
Say goodbye to all our dreams
It's time now toSay goodbye to memories
'Cause I have said so long
Say goodbye to all our dreams
It's time now to
I think it's time now to move on, move on
