

# Everything And More

## Krezip

Intro)

I)

When the aching is over I hope we can talk again

I hope that you'll understand me

I wonder if I ever will, yeah

II)

I'm now searching for a better way

Something that makes me feel good about myself, yeah

I hope some day we'll laugh about it all and then everything turns out to be alright, yeah

I)

I wish I could tell you all

I hope that we'll both be wise, hey baby

Just wish it wouldn't give this pain

And that it wasn't my fault, no

II)

And that I could help you out, baby ('cause you still remember)

'cause I still remember everything (that I could help you out, everything)

I)

The clock's still ticking

Your heart's still beating so there probably will be love again

But I can feel the aching don't care for what reason

But I'd rather see you smiling

II)

I'm now searching for a better way

Something that makes me feel good about myself, yeah

I hope some day we'll laugh about it all and then everything turns out to be alright, yeah

I)

I wish I could tell you all

I hope that we'll both be wise, hey baby

Just wish it wouldn't give this pain

And that it wasn't my fault, no

II)

And that I could help you out, baby ('cause you still remember)

'cause I still remember everything (that I could help you out, everything)

III)

Just everything and more

We were for everything and more

We were, no

IV)

Baby, you're not the only one that gives a damn  
There are too many reasons for me to understand  
But it takes us, baby, furtherway  
To start out as two, baby, yeah

I)

I wish I could tell you all  
I hope that we'll both be wise  
Both be wise, hey baby  
Just wish it wouldn't give this pain  
And that it wasn't my fault, no

II)

That I could help you out, baby ('cause you still remember)  
'cause I still remember everything (that I could help you out, everything)  
That I could help you out, hey baby ('cause you still remember)  
'cause I still remember everything (that I could help you out, everything)

III)

Just everything and more  
We were for everything and more  
We were
