Whales

An Angle

They're singing songs like us
Why don't we communicate
Their lifestyle is floating
Remember, they're like us
They're coming from afar
Remember, they're astral
What is wrong with their orientation
Where is the error? ?
What do we know of their orientationTell me why do whales run ashore? ?We're living like islands
No neighbours to talk or play with
The ocean is endless
There's liquid forever
Our race is so lonely
We're stranded, they landed, tell me..What is wrong with our orientation
Where is the error? ?
What do we know of our orientation..We're stranded, they landed..
We need someone to talk to!!!
