Turning On

Cloud Nothings

Take everything back from me
Relate everything back to me
Now we tape a television show
It's for mom and dad
Now we're taping television shows
For the girls back homeThe sun is turning on
The sun is turning on
The sun is turning on
The sun is turning onTake everything back from me
Relate everything back to me
Now we tape a television show
It's for mom and dad
Now we're taping television shows
For the girls back homeThe sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
The sun is turning on
