Turning On

Cloud Nothings

Take everything back from me
Relate everything back to me
Now we tape a television show
It's for mom and dad
Now we're taping television shows
For the girls back homeThe sun is turning on
The sun is turning on turning back from me
Relate everything back to me
Now we tape a television show
It's for mom and dad
Now we're taping television shows

The sun is turning on

For the girls back home The sun is turning on
