She's Got Style

Never Shout Never

If its not those cowboy boots in the summer

Oh my God I pray for another

Chance to drive down back highways

Til I stumble upon your beautiful face

Your presence isn't what kills me

It's that artistic gleam

That's taking over my scenery

Dream by dreamYou might think I'm incapable

Of loving a soul like yours

You might think I'm a fool

For youGirl you got style

That's what I love about you

The way that you sit back, Oh how you sit back

And watch this grow

You got dreams

And therefore I believe in you

All the small town people with their big remarks

da, da oooooooh, ohhhhh, oh, oh

Shes got style ,ba da da da,da da da-da da, ba da da

ooooh oh ohIf its not the fact that I'm a wee bit younger

Or the truth that I'm so naive

My heart keeps leaping back to you

Like a dog tied to a tree

I know it sounds crazy

It's ridiculous to me

But without you by my side girlYou might think I'm incapable

Of loving a soul like yours

You might think I'm a fool

For youCause' girl you got style

And thats what I love about you

The way that you sit back, oh how you sit back

And watch this grow

You got dreams

And therefore I believe in you

All the small town people with their big remarks

They ain't got jack to say about my movie starWhat are the odds

Of finding someone just like you?

Tell me why!

I never want to go back home I'm still falling for you, today
