

# Heart of Steel

[Lykke Li](#)

Oh heart of steel, don't kill thy song  
That sings so we, can heal the harm inside  
Don't leave me stranded, don't leave me alone  
Don't leave me dying, without a lover to hold  
Oh my heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win  
Don't run, don't hide  
Don't fight when I finally find  
A hand to hold, a song that clings with mine  
Don't leave me stranded, don't leave me alone  
Don't leave me dying, with out a lover to hold  
Oh my heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win  
Every night I feel you burning  
Every night I hear you calling  
Every night it's only you and I  
Oh my heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win  
Oh heart of steel, you reel me in,  
Oh heart of steel, I can't let you win.
