Whatever U Want

Christina Milian

Once again it's on and we gonna ride out
Once again till dawn, cut the lights out
Once again till morn keep the lights out
Till the end of the song
You're feelin' me
And it's got you all fired up
Tryin' to walk away
'Cause you don't want your heart tied up
But I can feel the proof when you're holdin' me
Like to let you think you're controllin' me
Even thought that ain't the deal
When I want I take the wheel, and I know
Can't hide that you're really into me
Hold is so tight I can barely breathe
'Cause you know I keep it real
Giving you what you can feel
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
You're frontin' like
You don't want no one to know
But it's in your eyes
That you don't want me to know
But I can feel the proof when you're holdin' me
Like to let you think you're controllin' me
Even thought that ain't the deal
When I want I take the wheel 'cause I know
Can't hide that you're really into me
Hold is so tight I can barely breathe
'Cause you know I keep it real
Giving you what you can feel
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it

Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
We gonna get it started, okay
Now go get the party jumpin' like me
Who crunk it like me
Lotta of guys here but none is like me
Though some could try to be
With two or three chains up under the white tee
And I got two or three dames that's comin' tonight
See 'em, done tonight, leave
Like one eyed peace
Only Mike puts up numbers like these
And he's no longer playin'
But neither am I, so
What I'm sayin' is hop in the deuce seater with I
'Cause you know with them boots and that beater you fly
Other dudes act to cheap with the pie, won't drop a few pennies
Or cop you a guinea, but I'll cop you as many
Toast till the bottle's all empty
Like pardon the Bravado in me
Us two that's a plan somehow
Get to know each other later, let's dance for now, c'mon
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Feelin' the flow, don't stop it
Whatever u need I'll be
Whatever u want I got it
Whatever u need that's me
Whatever u want I got it
Whatever u need that, that's me
