Keep On Rollin'

Argent

Don't know how the bills will get paid
Hard to make it by on minimum wage
Nobody I know got it made in the shade
Round and round and round and round we go
You better get up, Lord, you better get up
People, don't you know?
You gotta wake up, child, you better wake up
Get your feet back on the floor
If you feel your spirits sinking
Let your worries go
You got to keep on rollin'
Down that road
Hearts get broke and love gets lost
Nobody worry 'bout what it's gonna cost
Oh, now who's gonna pay when the dice gets tossed?
It's round and round and round and round we go
You better get up, Lord, you better get up
People, don't you know?
You gotta wake up, child, you better wake up
Get your feet back on the floor

If you feel your spirits sinking
You let your worries go
You got to keep on rollin'
Down that road
You better keep on rollin'
Down that road, oh yeah
It's round and round and round and round we go
You better get up, Lord, you better get up
People, don't you know?
You gotta wake up, child, you better wake up
Get your feet back on the floor
If you feel your spirits sinking
You let your worries go
You got to keep on rollin'
Down that road
You gotta keep on rollin'
Down that road
Oh, you better keep on rollin'

Down that road
