Naked

Leona Lewis

You could've left me on a Friday
Would've loved to at least have the weekend
To go under and stay under to
To get better and to stay better
But you had to pick a Monday
Now I've gotta go to work and get
Through five days
And get through it, if I can do it, no, I can't do it
There's a heartbreaking chill running through my bones
Got my clothes but I can't really feel them on
Oh no, whatever I do, I'm naked, I'm naked without you
Can't go out, can't go home, can't go anywhere
Covered up but I'm still watching people stare
Oh no, now what can I do? I'm naked, I'm naked without you
Trying to focus to go unnoticed
But the harder I try to stay dry, it rains
And I can't do it, no, they see through it
Yeah, they see through it

There's a heartbreaking chill running through my bones
Got my clothes but I can't really feel them on
Oh no, whatever I do, I'm naked, I'm naked without you
Can't go out, can't go home, can't go anywhere
Covered up but I'm still watching people stare
Oh no, now what can I do? I'm naked, I'm naked without you
Inside, I'm still hiding
Outside, I'm just too exposed
But I know that I should let go
But I miss you
There's a heartbreaking chill running through my bones
Got my clothes but I can't really feel them on
Oh no, whatever I do, I'm naked, I'm naked without you
Can't go out, can't go home, can't go anywhere
Covered up but I'm still watching people stare
Oh no, now what can I do? I'm naked, I'm naked without you
