

Gonna Rain Today

Gary Moore

2 3 4 Outside, the sun is shining
It's feeling like the month of May
But inside my heart is pining
And I think it's gonna rain today Everybody I see is smiling
As they watch the children play
But for me, no reconciling
And I think it's gonna rain today All the clouds have gone
Everybody sees the sun
But for me no going back
The clouds are here to stay
