I Got You

Nikki Flores

I've been waiting for a long time
For someone who can make my dreams come true
You've been with me for a long time
Helpin' me through all that I have gotten through
And I'm thankful for everything
You do for me, boy and you know that I love you
I'll take care of anything you'll ever need
Ooh, when you're all by yourself, baby
I got you
If you need someone to call, baby
I got you
There's no need to be lonely
I got you
And I know that you got me too, boy
Ooh ah, yeah
Ooh ah, yeah
When you smile at me, it makes me weak
I can count on you, boy, to be there when I'm fallin'
I didn't have to change for you to see
That nothing can ever come between you and me
I need you for who you are
And all that I am when I'm standin' next to you
I'm so lucky to have you in my life
Ooh, when you're all by yourself, baby
I got you
If you need someone to call, baby
I got you
There's no need to be lonely
I got you

And I know that you got me too, boy
Your heart is with me and with nobody else
I'm tryin' to keep my cool but I can't help it
I can't imagine life without your love
Now and forever you're all I'm thinkin' of
When you're all by yourself, I got you
There's no need to be lonely
And I know that you got me too, boy
Ooh, when you're all by yourself, baby

I got you
If you need someone to call, baby
I got you
There's no need to be lonely
I got you
And I know that you got me too, boy
Ooh, when you're all by yourself, baby
I got you
If you need someone to call, baby
I got you
There's no need to be lonely
I got you
And I know that you got me too, boy
Ooh, when you're all by yourself
You need someone, call me, I got you
When you're all by yourself
I got you, I got you, I got you
