

# Crop Tub

[AFI](#)

Fuck you very much You say you want to be friends  
Start over and try again?  
Well, things will never be the way they were back then  
Things were never how you wanted  
I couldn't think of you that way  
Now, if you walk one step closer I will take two steps away Maybe you need affection  
I'd like to help you but I can't stand when you're around  
Fuck you very much  
Maybe you need to talk but you betrayed my trust  
Friends were not good enough?  
Fuck you very much You can fucking claim you're straight  
Go ahead and dye your hair  
Won't get more attention from me  
I will never fucking care I try to remain secret  
Shooting away, hiding out  
But you always track me down  
Open your eyes and figure it out Maybe you need affection  
I'd like to help you but I can't stand when you're around  
Fuck you very much  
Maybe you need to talk but you betrayed my trust  
Friends were not good enough?  
Fuck you very much I'm not trying again  
I'm sick of seeing you  
Don't wanna be your friend  
I wish you'd go away Fuck you very much You say you want to be friends  
Start over and try again?  
Well, things will never be the way they were back then  
Things were never how you wanted  
I couldn't think of you that way  
Now, if you walk one step closer I will take two steps away Maybe you need affection  
I'd like to help you but I can't stand when you're around  
Fuck you very much  
Maybe you need to talk but you betrayed my trust  
Friends were not good enough?  
Fuck you very much
