Sucker Punch

Red Line Chemistry

Sucker Punch"
Sucker punch drunk dizzy love The great scape for the taste of something new Holding on trying to let it go
Running scared unaware what I'm running to
And when the consequences come I'm climbing up the walls And it's a long long way to fall
Flying high just to kill in time Such a wreck I neglet to follow through They are around when you're coming down Out of space ain't no place to ground your mind
And when the consequences come I'm climbing up the walls And it's a long long way to fall
You will say the worst of me I was on my knees You can take the best of me Don't you say it's all a part of me
Sucker punch drunk dizzy love Sucker punch drunk dizzy love
