

# Dare If You Dare

## Stone Temple Pilots

All minds were juxtaposed  
Swine flu Sally [Incomprehensible]  
Like a lifelike Pinocchio  
Everybody now is just trying to avoid it  
Newsman Tom is trying to exploit it  
I know a kid'll start to feel with a little rock 'n' roll  
Women in miles doing primitive times  
But Doctor Lady Ritchie won a Nobel prize  
With a putrid smile  
What to do about the world nutrition?  
Can we dismantle our stupid vision  
And get on with the show?  
Dare, dare if you dare  
Dare to be something, dare to be real  
Dare, dare to be more  
Hope for the better, dare to be real  
It's hard to make amends  
When you're sitting there on the fence  
With the groupie in the pudding sugar  
Everybody wants to start a new religion  
Please relax, we need a soul collision  
Does the dusty roads with the promise of love is to be?

Yeah, yeah, yeah, hey  
Dare, dare if you dare  
Dare to be something, dare to be real  
Dare, dare to be more  
Hope for the better, dare to be real  
Dare if you dare, if you dare, if you dare  
(I brought it down all together)  
If you dare, if you dare, if you dare  
(I hope it lights the light forever)  
If you dare, if you dare, if you dare  
(Wanna hear it if you dance with me)  
If you dare, if you dare, if you  
(I wish you'd just believe)  
Dare, dare if you dare  
Dare to be something, dare to be real  
Dare, dare to be more

Hope for the better, dare to be real  
Dare if you dare, if you dare, if you dare  
If you dare, if you dare, if you dare, if you dare  
If you dare, if you dare, if you  
Dare, if you dare
