Ride the Snake

Criteria

"Ride the Snake" by CriteriaI could show you around my house
I show you my precious things
We don't have to talk, it doesn't matter.
Don't resurrect the same ideas
Cause all we are is what we've livedMaintain a frame of mind
To see the big picture
Cause if there's nothing above
Then there's nothing in our soulsIt is not safe to be alone, individual
It's a standard you must confront on your own.Worked on it enough, I should have known
(Radio concepts flow from the table)
It's a big principle, you'll have to grow
(Radio concepts flow from the table
Make it a concept, make it a staple)
Don't waste time looking up, cause there's nothing there
(Radio concepts flow from the table
Make it a concept, make it a staple)It is not safe to be alone, individual
It's a standard you must confront on your own
Maintain your belief in the concept of making it true
Refrain! Don't concede to the contra of controlling you
This song is a telegram I lifted from, I lifted from you.I can see there's a wait
We've been here the whole time now
To live just outside of the lines, yeah.
Well there is a day, when we break out of this town
And live just outside of the lines, yeah.
Live just outside of the lines, yeah.
