

Annubis

Septic Flesh

Come
Approach
My trusty jackal's nose
Don't try to lie
Cause I can smell your hide Leave your body
Leave this body now
Your face can stay
Upon this golden mask you made The brave in heart
Can claim eternal life
My scales of truth
Will need sufficient proof Their balance depends
On how your soul weights
To walk with Gods
The jaws of chaos you must pass Annubis
My soul is so light
And as this feather I can fly Annubis
Don't let me wither and die I am proud for what I am
The guardian of the dead
Appointed by the gods
To be their final judge Annubis
Don't let me wither and die
