

Somewhere Up Here (Dead Robot Bootleg)

[deadmau5](#)

Breathe it in now
then breathe it out,
let the air flow over me.
Up high can you tell me what you see?
This life, is it more than just a dream? Look at me now,
Then look away.
Can you tell me what to do?
Your eyes, they no longer speak for you.
Inside, tell me where you hide the truth.
Inside, tell me where you hide the truth. If you want me to stay,
I need you to know:
You can never ever leave me alone. If you want me to stay,
I need you to know:
I can never let you go.
I can never let you go! [instrumental part] Breathe it in now
then breathe it out,
let the air flow over me.
Up high can you tell me what you see?
This life, is it more than just a dream? Look at me now,
then look away.
Can you tell me what to do?
Your eyes, they no longer speak for you.
Inside, tell me where you hide the truth! If you want me to stay,
I need you to know:
You can never ever leave me alone! If you want me to stay,
I need you to know:
I can never let you go!
I can never let you go!
