

# Ready To Blow

## Baskerville

I can hardly breathe  
Lost and hopeless  
Down so low  
Something died inside  
I just can't believe it Violent tendencies  
Murder, madness  
Good gone bad  
Try to talk about it  
Nobody believes me Static in my head  
Lines blur red  
Got my mind made up  
And my trigger finger  
Ready to blow Finger on the trigger, I'm a barrel of a gun  
(Ready to blow)  
Finger on the trigger, I'm a barrel of a gun  
(Ready to blow) Finger on the trigger, I'm a barrel of a gun  
Finger on the trigger, I'm a barrel of a gun Life draws out of me  
Spent and broken  
All mixed up  
Crying out in vain  
Somebody release me Evil speaks to me  
Caustic rage  
I've no control  
A living hell of hate  
Sinister deceiving Static in my head  
Lines blur red  
Got my mind made up  
And my trigger finger  
Ready to blow Finger on the trigger, I'm a barrel of a gun  
(Ready to blow)  
Finger on the trigger, I'm a barrel of a gun  
(Ready to blow) Finger on the trigger, I'm a barrel of a gun  
Finger on the trigger, I'm a barrel of a gun Out of my mind in this fucked up head  
I want everything that I never had  
A little something a reason why  
Ready to blow, I'm ready to die Depart this world on a silver bullet  
I never believed, I would ever pull it  
Now's the time, here's my show  
Ready to go, I'm ready to blow Time stands still for me

Black and blistered  
Drown my sleep  
Let thy will be done  
Make it quick and easy Static in my head  
Lines blur red  
Got my mind made up  
And my trigger finger  
Ready to blow Finger on the trigger, I'm a barrel of a gun  
(Ready to blow)  
Finger on the trigger, I'm a barrel of a gun  
(Ready to blow) Finger on the trigger, I'm a barrel of a gun  
Finger on the trigger, I'm a barrel of a gun Finger on the trigger, I'm a barrel of a gun  
Finger on the trigger, I'm a barrel of a gun
