

# Breakaway Speed

[Kim Richey](#)

She couldn't make river, but she had to make rain  
Once it starts falling, it was never the same  
40 days running, 40 nights long  
Water kept on coming till the valleys are gone, gone  
She said it's alright, took me where she left me  
Turn around, ran away, break away speed  
Never look back, said she won't forget me  
Turn around, ran away, break away speed  
Break away speed  
Water come running but I couldn't keep up  
She counted all her blessings but it wasn't enough  
They were hiding in the shadows where it's never quite clear  
She want something better but she couldn't find him  
Couldn't find him  
She said it's alright, took me where she left me  
Turn around, ran away, break away speed  
Never look back, said she won't forget me  
Turn around, ran away, break away speed  
Break away speed  
I think of her, when the sun goes down  
It falls behind, the edge of town  
She said it's alright, took me where she left me  
Turn around, ran away, break away speed  
Never look back, said she won't forget me  
Turn around, ran away, break away speed  
Break away speed, break away speed.
