

# The New Generation

**Robin Thicke**

Things are really changing  
From Africa to Asia  
To Europe across the sea  
Everybody got his head up  
Ain't nobody on his knees  
And the . start flying  
And the days under the quite sky  
And we stay and wonder  
Under the biblical .  
Like it used to be  
Cause it is better than it was  
With a new generation

We believe in us  
We believe in us  
We believe in us  
(we are the new generation)  
Now we are sharing our money  
Now we are helping .  
Now we are calling our bother saying I apologies  
Love is stronger . baby's eyes .  
You want a glass of champagne  
You wanna play . national anthem  
For all the . died in vein . international inspiration  
Number one most trendy . stop flying
