

Inherit the Earth

The Unguided

Go, all wrong You can breathe (breathe now)
You can breathe but the air is running out
We lost all hope (lost all hope)
In the church of our doom
And suffer through
The funeral of our world We breed germs in vials with the means to kill continents
In chemical warfare
We design bombs, which can knock the earth from it's path
It's path around the sun The prince is never going to make his way
Sleeping beauty is already dead
Still the worst is yet to come Pray to whatever - God you believe in
We will need all the help - Help that we, we can get
Let me place my hand on - Your heart (your heart, your heart, you heart)
Or at least point out where - Where it should have been Every brick you see in this world
Is there because we put it there
Now we just seek to destroy
Everything that we created You don't inherit the earth from your parents, you just borrow it
Borrow it from your children
Now ask yourself who pulls the strings of your life
And cut them one by one The prince is never going to make his way
Sleeping beauty is already dead
Still the worst is yet to come Pray to whatever - God you believe in
We will need all the help - Help that we, we can get
Let me place my hand on - Your heart (your heart, your heart, you heart)
Or at least point out where - Where it should have been Grow a new one
Grow a new one
Grow a new one
Grow a new... HEART[Solo] Pray to whatever - God you believe in
We will need all the help - Help that we, we can get
Let me place my hand on - Your heart (your heart, your heart, you heart)
Or at least point out where - Where it should have been Pray to whatever God you believe in
We will need all the help that we can...
