

Long Legged Linda

Status Quo

(parfitt / bown) Well, if you're ever in los angeles
And you've got time to spare
Take a stroll up sunset boulevard
You'll find the whiskey there
Gliding round the tables
With wouderous natural ease
Serving two-star brandy
Is the body you have to see...all belonging to Long-legged linda
She sure was worth the flight
Long-legged linda is playing the whiskey
Tonight Oh don't boogie-woogie with linda
'tho she dances like a dream
She acts like she's a thousand
But she's barely sweet sixteen
She re-arranged my brain-cells
And took control of me
So if I miss my plain to jacksonville
You can guess where I'll still be...i'll be diggin' Long-legged linda
She sure was worth the flight
Long-legged linda is playing the whiskey
Tonight She re-arranged my brain-cells
And took control of me
So if I miss my plain to jacksonville
You can guess where I'll still be...i'll be diggin' Long-legged linda
She sure was worth the flight
Long-legged linda is playing the whiskey
Tonight Long-legged linda
She sure was worth the flight
Long-legged linda is playing the whiskey
Tonight Long-legged linda
Long-legged linda
Long-legged linda
Long-legged
