

# Till I'm Blue

## Nicki Bluhm and The Gramblers

Way up high in the bitter bye-and-bye  
With a vision in my brain and cinder in my eye  
I gaze into the glass and I feel my body float  
And I read a hundred meanings in the letter that you wrote  
Why I came to know you, you sweet so-and-so, I'll never know  
We walk a twisted mile to see that time always  
wins  
Yet if we keep our promises we might get some back again  
It does my heart some good that I can ride along with you  
When it's all gone to hell and we've done what we can do  
And the moon will be rising soon  
Chorus:  
I'm trying to find it  
I can almost hear the tune  
I hope that you don't mind me  
Talkin 'till I'm blue  
'till I'm blue  
Talking 'till I'm blue  
'till I'm blue  
Wet grass to my knees Is making my feet freeze  
I'm looking at the sky and I'm climbing fallen trees  
And I'm lost in the museum of the path not chosen  
And the trail's gone cold and the beer's all frozen  
There's a revelation long overdue.  
Chorus:  
I'm trying to find it  
I can almost hear the tune  
I hope that you don't mind me  
Talkin 'till I'm blue  
'till I'm blue  
talking 'till I'm blue  
'till I'm blue  
talking 'till I'm blue  
'till I'm blue  
Way up high in the bitter bye-and-bye  
With a vision in my brain and cinder in my eye.  
I gaze into the glass and I feel my body float  
And I read a hundred meaning in the message that you wrote  
Why I came to know you sweet so-and-so, I'll never know
